Grand Island Soccer Club

Updated cost structure for 2026/27 Travel Program

GISC is transitioning to a registration fee that better reflects the total annual cost for participation and includes some exciting enhancements to our program.

The new annual fee for the 2026/27 Travel Season will be $550.
What does the $550 Travel Registration Fee cover?

- All League, referee, and administrative fees
- Resources and equipment for coaches and training
- Twice weekly indoor practice time at NISE facility October through April
- (3) Goalkeeper clinics
- One Summer Tournament Registration
- Paid TeamSnap subscription for each team

This breaks down to less than $10 per session to participate in our year-round soccer program. Our goal is to provide a more consistent, uniform structure for all of our teams and streamline the process for our coaches and families. This is a long-term plan that will yield increased player development benefits. This model brings us into alignment with most of our peer community travel clubs.

What required costs are left?

- Uniform Kit (Approx. $100 for two years) - NOTE that we will be carrying over our current uniforms for 2026/27.

What additional costs might I anticipate?

- Winter Indoor League (Approx. $120-$150 per player for participating teams)
- Additional tournaments (Varies - $50-$150 per player for participating teams)

The total average annual cost per player in recent years for GISC travel ran $500-$900 depending on the team. Most players will experience little change in cost for the coming year but will see more return for their investment based on the enhancements we are offering.

We will also be accepting payments in up to (3) installments with total payment due by March 1st. The first installment will be due when team rosters are announced in September.
